NotebookLM

NotebookLM (Google NotebookLM) is a research and note-taking online tool developed by Google Labs that uses artificial intelligence (AI), specifically Google Gemini, to assist users in interacting with their documents. It can generate summaries, explanations, and answers based on content uploaded by users. It also includes "Audio Overviews", which summarizes documents in a conversational, podcast-like format.^{[1][2]}

NotebookLM

Developer(s)	<u>Google Labs</u>
Initial release	2023
Website	<u>notebooklm.google</u> (<u>https://notebooklm.google</u>)

NotebookLM was initially launched in 2023 as "Project Tailwind".^{[2][3]} Google describes it as a "virtual research assistant".^[4] In addition to text files, NotebookLM can process PDFs, Google Docs, websites, and Google Slides.^[1] The "Audio Overviews" feature,^[5] released in September 2024, gained media attention for its ability to condense complex documents into engaging podcasts.^{[4][6][7]} Initially intended for researchers, NotebookLM has also been adopted by companies and students.^[1]
